3 **Alvin Curran**  
12 Programmed by Sarah Cahill

46 "The first question I ask myself when something doesn't seem to be beautiful is why do I feel it's not beautiful? And very shortly you discover there is no reason." **47 JOHN CAGE**

The irreverent composer and performer Alvin Curran visits from his home base in Rome to play from *The Alvin Curran Fakebook*, a recent solo piece drawing on over fifty years of composing "in real and unreal time, for piano, voice, electronics, and the music found in all things." As a founder of the groundbreaking group Musica Elettronica Viva in 1966, he was at the forefront of the fusion of improvisation with electronic music. At this L@TE appearance, Curran will pare his performance down to the most
